

WHY AEROFLEX USA?

Aeroflex USA is the American manufacturer of the Aerocel® brand of EPDM (ethylene propylene diene monomer) closed cell elastomeric foam pipe, duct and equipment insulation for HVAC, refrigeration, and plumbing systems.

• Aerocel EPDM is...

- **Non-polar** and **hydrophobic**: repels moisture, does not induce or react with water
- Composed of a **closed-cell structure** with **built-in vapor retarder**
- **Thermally efficient** (thermal-k value of 0.245 @ 75° F per ASTM C518)
- **Resistant to water vapor** (0.03 perm-inch per ASTM E96)
- **Maintains flexibility in cold weather**; does not crack and break apart
- Inherently more **UV-resistant** than traditional NBR/PVC rubber (ASTM G7, D1171)
- Offers a **higher continuous operating temperature** than NBR/PVC rubber at **257° F [125° C]** (ASTM C411)
- **Non-corrosive** when installed over **stainless steel** systems (ASTM C692)
- **Naturally microbial-resistant**; no biocides added (ASTM C1318, G21, UL 181 Section 13)
- Passes **25/50** flame spread/smoke-developed index up to **2" [50 mm]** thick (ASTM E84)
- **Self-extinguishing** (ASTM D635)
- **Stay-Seal™** with **Protape® (SSPT™)** factory pre-slit tubes and **Cel-Link II®** seam seals are glueless
- **SSPT** is available in pre-formed, pre-slit tubes in pipe sizes up to **16" IPS**
- Available in **AC, White/Gray, REF™** (Refrigeration) and **ULP®** (Ultra-Low Perm) formulas
- **GREENGUARD Gold-certified** for low chemical emissions (VOC's)
- Compliant with **REACH Substances of Very High Concern (SVHC)**
- Compliant with **RoHS** (European Union - Restriction of Hazardous Substances)
- Approved for **MIL-P-15280** (Form S, T) - U.S. Department of Defense Qualified Products List (QPL)
- **Buy American** compliant
- **Made in USA** with global materials

• Hermetic Single-Source Warranted System Solutions

- **Aerocel Sheets & Rolls** and **Aerocel Sheets & Rolls with PSA**
- **Aerocel with SaniGuard™** jacketed pipe insulation
- Aerocel Adhesives - **Aeroseal, Aeroseal LVOC™ Black** and **REF 1520™**
- **Protape®** zero-perm EPDM tape
- **Aerofix®** pre-insulated pipe supports
- **AeroFit™** factory fabricated EPDM fitting covers (standard and grooved)
- **Aerocoat™** and **Aerocoat LVOC™** insulation coatings
